Re: WT Docket No. 02-55  
*Ex Parte Presentation*

Dear Ms. Dortch:

On Friday, June 18, 2004, Robert S. Foosaner, Senior Vice President, Nextel Communications, Inc. ("Nextel"), met with Bryan Tramont, Chief of Staff to Chairman Michael Powell, regarding the Commission's above-captioned rulemaking on public safety communications in the 800 MHz band. During the meeting, Mr. Foosaner and Mr. Tramont discussed the following topics: (1) Nextel's offer to contribute an additional 2 MHz to the Consensus Plan for 800 MHz realignment, as described in Nextel's previous filings in this proceeding; (2) the additional filters Nextel will be required to install in its base stations to protect licensees operating in the 816-817/861-862 MHz band; (3) Nextel's commitment to pay for the additional incumbent licensee retuning costs related to the inclusion of this band in the Consensus Plan; and (4) Nextel's total spectral and financial support for the enhanced Consensus Plan, which is set forth in the attached slide provided to Mr. Tramont during the meeting.

Pursuant to section 1.1206(b)(2) of the Commission's rules, 47 C.F.R. § 1.1206(b)(2), this letter is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Sincerely,

/s/ Regina M. Keeney

## Nextel's Spectral and Financial Support of The Consensus Plan

<b>Retuning 800 MHz to Eliminate Interference</b>	
Retuning Public Safety and Private Wireless	\$850M
Retuning Nextel (Nextel's own retuning costs)	\$400M
<b>Additional filters at Nextel's base stations (including protection of 861-862 MHz)*</b>	<b>\$407M</b>
Restricted use of 862 – 863 MHz (equivalent to surrendering 0.5 MHz)	\$288M
<b>Creating "Green Space" and Providing Additional Spectrum for Public Safety</b>	
4.5 MHz @ 800 MHz	\$2,590M
4 MHz @ 700 MHz	\$350M
<b>Clearing the Replacement 1.9 GHz Spectrum</b>	
Pro rata UTAM reimbursement	\$15M
Relocating all BAS licensees	\$512M
<b>Total</b>	<b>\$5,412M</b>

\*Note: Nextel commits to paying for the additional incumbent retuning costs related to contributing 816-817/861-862 MHz to the Consensus Plan.
